WHAT IS INUC?

The Third United Nations Conference on Housing and Sustainable Urban Development (Habitat III), to be held in 2016, will be about sustainable urbanization and our urban future. It will be a major opportunity to assess the state of the world's cities and to revisit our global urban future, 40 years after the first conference on human settlements held in Vancouver.

UN-Habitat Iran and National Habitat Committee of Islamic Republic of Iran have jointly launched Iran's National Urban Campaign (INUC). INUC aims to bring in all interested parties and stakeholders under a single virtual platform to develop, share and promote ideas about the future city that the Iranians want under the motto "The City We Need". INUC facilitates participation of all partners including citizens, experts, and public and private organizations.

WORKING GROUPs

INUC has six working groups based on thematic areas of the New Urban Agenda in Habitat III.

Urban Housing
& Services

Social Cohesion
& Equity

Urban
Frameworks

Spatial
Development

Urban
Economy

Urban Ecology
& Environment

TELL YOUR STORIES

We invite Iranians from all walks of life who are interested to tell us their success story, or innovative solutions in their cities, or share interesting photographs or video footages, or simply comment on any subject that relates to their city life, to write to us or upload their photos and videos on our website, which is jointly managed with the National Habitat Committee.

IRAN's NATIONAL URBAN FORUM

Iran's National Urban Forum is an assemblage in which experts are to scrutinize Iranians' ideas, public opinions and the descriptions of the city they need received by INUC after one year of activity. In fact, this forum translates public ideas, comments and recommendations about urban problems into specialized literature and decision makers' and takers' language. The result would be a report to be sent to Habitat III conference as "Iran's New Urban Agenda".

JOIN US

INUC provides all main partners including media, civil society, sponsors and experts with a platform to contribute in preparation for Habitat III. INUC cooperates with its partners to ensure that all voices are heard. This cooperation can be defined in three ways: joint knowledge management, implementation support or technical assistance, and co-funding.
