

## World Urban Campaign Terms of Reference

1. The World Urban Campaign (WUC) is a key means by which UN-Habitat is engaging a wide range of partners in implementing its Strategic Plan. Together with the World Urban Forum, the WUC spearheads UN-Habitat's work in the area of advocacy, partnerships and outreach. It also contributes to enhancing work in the area of branding and communications.
2. The **WUC vision statement** is: 'Together shaping the future of cities leaving no one behind'.
3. **The WUC mission** is to contribute *in developing solutions and taking action in cities and communities of all sizes to implement the New Urban Agenda to accelerate the achievement of the sustainable development goals (SDGs) by 2030.*
4. The **WUC goal** is to help achieve the urban dimension of the sustainable development goals (SDGs) by 2030 and implement the New Urban Agenda.
5. **The strategic actions to achieve the goal are as follows:**
  - **Advocate and raise-awareness** on the role of cities and communities in achieving the SDGs and delivering positive change.
  - **Identify solutions** to catalyze actions between stakeholders in cities and communities.
  - **Promote actions** that have the best potential to scale-up and accelerate the achievement of the SDGs.
  - **Mobilize partners** to implement the NUA and accelerate the achievement of the SDGs through specific alliances and joint actions
  - **Measure** the results of joint actions and identify concrete achievements towards the SDGs.
6. The above **WUC actions** are driven by the following **principles**:
  - **Ambition:** With just 10 years to go to meet the targets of the SDGs, we need to have ambitious goals commensurate with the global effort needed to deliver the 2030 promise under the Decade of Action.
  - **Collaboration:** we conceive and deliver action in a spirit of collaboration and mutual support among the diverse community of partners, complementing each other rather than competing. We thrive to build synergies in order to catalyze actions as needed in implementing the NUA to accelerate the achievement of the SDGs. Urban Thinkers Campuses are the key platforms to do so as well as National and City level campaigns

- **Result-driven:** Our actions are driven by results that are measurable. We are accountable, transparent and we monitor our actions on the ground and demonstrate impacts of solutions in cities and communities. Our contributions to the SDGs are tangible.
  - **Partnership:** *We thrive to deliver in partnership with UN-Habitat, in particular around its flagship projects.*
7. The WUC engages the general public through action campaigns on key areas to raise awareness on critical issues and promote positive urban changes. It promotes policy dialogues to discuss urban issues, identify solutions and take actions through initiatives developed and implemented locally along agreed platforms such as the Urban Thinkers Campus. Solutions and actions are documented and lessons learned shared broadly for improving future actions.
  8. The WUC represents a variety of stakeholders engaged in cities and communities. We thrive to represent all voices through our constituent groups: local and sub-national authorities; research and academia; civil society organizations; grass roots organizations; women; parliamentarians; children and youth; business and industries; foundations and philanthropies; professionals; trade unions and workers; farmers; indigenous people; media; disabled and older persons.
