“The battle for a more sustainable future will be won or lost in cities.”
THE 21st CENTURY URBAN CHALLENGE

The world is at a crossroads. As we have witnessed in 2020, the world has been living in what has been called “the new normal,” as people living in cities, especially poor and vulnerable groups have been disproportionately hit with social, economic, and political challenges from the COVID 19 pandemic. This has resulted in devastating setbacks to reaching the Sustainable Development Goals to reduce poverty and advance inclusive, safe, resilient, and sustainable cities. However, despite these setbacks, cities and urban areas remain central to the sustainable development trajectory.

In the next decade, the world will continue to urbanize, from 56 percent today to 60 percent by 2030. Urban areas are expected to absorb virtually all the future growth of the world’s population. How we plan, build, and manage our cities today will determine the outcomes of our efforts to achieve a sustainable and harmonious development tomorrow. Well-planned cities allow all residents the opportunity to have safe, healthy, and productive lives. Well-designed cities present nations with major opportunities to promote social inclusion, equality, resilience, and prosperity. The prevalent global standard urbanization model has produced unbalanced densities, segregation, poverty and environmental degradation.

It has missed the economic advantages offered by economies of agglomeration, while losing the sense of conviviality that the street and public space could generate. It has isolated a large part of the population in slums and sub-standard suburbs against the formal city and its gated communities that increasingly require surveillance and control. The unexpected consequences of this unsustainable model include the rising cost of living in cities, unemployment, high energy consumption and negative environmental impacts.

THE POSITIVE ROLE OF CITIES

Cities are the world’s engines for development. Cities represent an unparalleled opportunity to forge a new urban era where people can find freedom, equal opportunities, inspiration, health and security. With good management cities can provide quality of life while building sustainability. Understanding the city as a complex system is needed to achieve short-term economic goals with longer-term policies and strategies that focus on shared prosperity, better health, safety, and wellbeing of all the city’s inhabitants.
Though the urban transition may pose complex challenges for a shared and sustainable future, cities provide the answers to these challenges and are the drivers of their solutions. Cities themselves are the greatest asset in promoting and pursuing sustainable development. In a compact and well-planned city, investments in urban infrastructure will reach more recipients and yield more per-dollar benefit than in rural contexts. A compact city offers businesses a comparative advantage in terms of competitiveness and employment. Poor and disadvantaged people living in cities are more likely to be lifted out of poverty than their rural counterparts as urbanization and urban density brings value.

Cities can also offer the best climate change solutions. A compact, densely populated and well-planned city generates lower emissions and consumes less energy per capita than sprawling and dispersed urban districts. The quality of a city’s urban fabric has significant implications for ecologically sustainable development given that buildings account for 30 percent of all greenhouse gas emissions. Of equal importance, a densely populated, well-planned city offers the opportunity for inclusive governance, which is fundamental to sustainable urban development.

The current age of urban dominance and economic globalization has produced patterns of growth and development that provide dynamic opportunities but pose imperative challenges that need to be addressed collectively and require the commitments of all: cities and their organizations, communities and individuals, national entities, professionals, researchers, educators, businesses, the civil society at large.

The **World Urban Campaign** is a global movement to rally them all through a positive vision and understanding of the tremendous benefits cities can bring to future generations. It is about dealing with the most challenging aspects of urbanization that require new, innovative ways of thinking, new levels of understanding, and most importantly, new partnerships.

More than ever, our shared vision is to achieve cities and human settlements where every individual can enjoy equal rights and opportunities, as well as their fundamental freedoms. To achieve this, we need to implement the Sustainable Development Goals and the complimentary New Urban Agenda which is grounded in the Universal Declaration of Human Rights and informed by the Declaration on the Right to Development and the Right to the City.
THE NEW URBAN AGENDA

In this unprecedented era of increasing urbanization, we have reached a critical point in understanding that cities can be the source of solutions to, rather than the cause of, the challenges that our world is facing today. If well-planned and well-managed, urbanization can be a powerful tool for sustainable development for both developing and developed countries. The New Urban Agenda represents a shared vision for a better and more sustainable future – one in which all people have equal rights and access to the benefits and opportunities that cities can offer, and in which the international community reconsiders the urban systems and physical form of our urban spaces to achieve this.

By incorporating a new recognition of the correlation between good urbanization and development, the agenda underlines the linkages between good urbanization and job creation, livelihood opportunities, and improved quality of life, which should be included in every urban renewal policy and strategy. This further highlights the connection between the New Urban Agenda and the 2030 Agenda for Sustainable Development, especially Goal 11 on sustainable cities and communities.

There is no single prescription for improving urbanization and achieving sustainable urban development, but the New Urban Agenda provides the principles and tested practices to bring its vision to life. May it inspire and inform the decision-makers and urban inhabitants of the world to take ownership of our shared urban future: one policy, law, plan, design, or project at a time. At this critical juncture in human history, rethinking the way we plan, build, and manage our urban spaces is not an option but an imperative.

The New Urban Agenda presents a paradigm shift based on the science of cities; it lays out standards and principles for the planning, construction, development, management, and improvement of urban areas along its five main pillars of implementation: national urban policies, urban legislation and regulations, urban planning and design, local economy and municipal finance, and local implementation. It is a resource for every level of government, from national to local; for civil society organizations; the private sector; constituent groups; and for all who call the urban spaces of the world “home” to realize this vision.
The World Urban Campaign: A Global Catalyst for Change

The World Urban Campaign is an advocacy and partnership platform set up to raise awareness about positive urban change in order to achieve green, productive, safe, healthy, inclusive, and well-planned cities.

The World Urban Campaign provides multiple avenues to give a voice to everyone, helps develop synergies between organizations through dialogue, and promotes urban solutions to achieve resilient and sustainable cities and communities.

The World Urban Campaign constitutes a collective intelligence representing more than 170 organizations organized in 16 constituencies. It is driven by an inclusive democratic governance giving a voice to everyone. Partners of the campaign are wholly independent organizations joining hands on the agreed principles of The City We Need.

GOVERNANCE

The World Urban Campaign is made of the following members:

Partners

Organizations that have signed a statement of commitment supporting the principles of the WUC, The City We Need manifesto and committing to a number of activities for a minimum period of two years.

City Partners

Local governments that have signed a statement of commitment supporting the principles of the WUC, The City We Need manifesto and committing to a number of activities in their city for a minimum period of two years.
City Changers

Individuals that have participated in an Urban Thinkers Campus organized under the banner of the WUC, and committed to the principles of the WUC, The City We Need manifesto, supporting the campaign's key messages and contributing to specific WUC outcomes for a period of two years.

Sponsors

Organizations that have signed a contribution agreement with UN-Habitat on the World Urban Campaign supporting the principles of the WUC, The City We Need and committing to financially support the WUC activities while benefitting from a special visibility as WUC sponsors.

Partners are organized into 16 Partners Constituent Groups:

1. Local and Sub-national Authorities
2. Research and Academia
3. Civil Society Organizations
4. Grassroots Organizations
5. Women
6. Parliamentarians
7. Children and Youth
8. Business and Industries
9. Foundations and Philanthropies
10. Professionals
11. Parliamentarians
12. Trade Unions and Workers
13. Farmers
14. Indigenous People
15. Medias
16. Older Persons

All members meet annually during the WUC Assembly to exchange on the results of WUC activities. The World Urban Campaign is comprised of several governing committees under the leadership of the UN-Habitat Executive Director:

The Steering Committee is the catalyzing, action-planning and monitoring organ of the World Urban Campaign. It guides the substantive and operational matters of the WUC and serves as an advisory body to the Executive Director of UN-HABITAT. The Steering Committee is led by two WUC Co-Chairs, the Partners Constituent Groups Chairs and UN-Habitat. The Steering Committee meets quarterly.

Working Groups are defined by the Steering Committee and constituted by selected Partners that have agreed to contribute. They discuss the WUC vision and governance, its communication, outreach and engagement activities, as well as specific initiatives.

The Secretariat, led by UN-Habitat, supports the Steering Committee. It provides guidance and liaises with all partners to carry out agreed activities, assists in the development of processes and protocols to match campaign goals and strategies with partners interests. It acts as an the interface between the partners and UN-Habitat divisions and programmes.

Elections

The World Urban Campaign partners elect their representatives every two years, during the World Urban Forum:

- The two Chairs of the Steering Committee
- A Chair and Co-Chair(s) for each of the Partners Constituent Groups
**Key Milestones**

**Habitat II Conference**
3-14 June 1996 | Istanbul, Turkey

The Habitat Agenda establishes the need for **partnerships** between governments and the various sectors of civil society, local authorities, businesses, academics, trade unions, professional organizations, youth and women groups, in order to achieve sustainable development.

**UN-Habitat establishes two global campaigns on Secure Tenure and Good Urban Governance.**
1999 | Nairobi

**UN-Habitat’s Governing Council requests a forward-looking assessment of the two above campaigns and decides to merge them into one single forward-looking strategic campaign on sustainable urbanization.**
2003 | Nairobi

**At 23rd Governing Council, Member States officially call for a single campaign: the Global Campaign on Sustainable Urbanization.**
2005 | Nairobi

**Twenty organizations meet and form the first Steering Committee of the Global Campaign on Sustainable Urbanization.**
2009 | Paris

**Launch of the World Urban Campaign/ Fifth Session of the World Urban Forum**
22-24 March 2010 | Rio De Janeiro, Brazil

**Launch of first ‘I’M A CITY CHANGER’ Campaign**
Amsterdam, 2012

**World Urban Forum 6: Launch of the Manifesto for Cities - UN-Habitat Executive Director tasks the World Urban Campaign to elaborate a new urban paradigm towards the Habitat III Conference**
1-7 September 2012 | Naples, Italy

**First Urban Thinkers Campus initiates ‘The City We Need’ towards the Habitat III Conference**
October 2014 | Caserta, Italy
UN Sustainable Development Summit – Urban SDG (11) is adopted on sustainable cities and communities to address urban issues in the Development Agenda 2030

25-27 September 2015 | New York, USA

Adoption of The City We Need 2.0

12 March 2016 | Prague

Habitat III Conference: the WUC is recognized as part of the legacy of the Habitat III Conference in the New Urban Agenda adopted by Member States in Quito.

17-20 October 2016 | Quito, Ecuador

WUC 1st Assembly: World Urban Campaign New Governance and Vision 2030 adopted

November 2020 | Nairobi, Kenya / online

Our Vision: “Together shaping the future of cities leaving no one behind.”
Our Vision, Goal and Mission

OUR VISION

“Together shaping the future of cities leaving no one behind.”

OUR GOAL

“Help achieve the urban dimension of the sustainable development goals (SDGs) by 2030 and implement the New Urban Agenda.”

OUR MISSION

“Our mission is to contribute in developing solutions and take action in cities and communities in implementing the New Urban Agenda to accelerate the achievement of the sustainable development goals (SDGs) by 2030.”

Sustainable urbanization is understood by all partners as a process which promotes an integrated, gender-sensitive and pro-poor approach to the social, economic and environmental pillars of sustainability. This integrated approach further requires that investments be made in new forms of technology and inclusive governance. More specifically, the principles of sustainable urbanization involve:

- Accessible and pro-poor land, infrastructure, services, mobility and housing;
- Socially inclusive, gender sensitive, healthy and safe development;
- Environmentally sound and carbon-efficient built environment;
- Participatory planning and decision making processes;
- Vibrant and competitive local economies promoting decent work and livelihoods;
- Assurance of non-discrimination and equitable rights to the city; and
- Empowering cities and communities to plan for and effectively manage adversity and change.
OUR STRATEGIC ACTIONS

- Advocate and raise-awareness on the role of cities and communities in achieving the SDGs and delivering positive change.
- Identify solutions to catalyze action between stakeholders in cities and communities.
- Promote actions that have the best potential to scale-up and accelerate the achievement of the SDGs.
- Mobilize partners to implement the NUA and accelerate the achievement of the SDGs through specific alliances and joint actions.
- Measure the results of joint actions and identify concrete achievements towards the SDGs.

OUR ACTIONS ARE DRIVEN BY THE FOLLOWING PRINCIPLES:

- **Ambition**: With just 10 years to go to meet the targets of the SDGs, we need to have ambitious goals commensurate with the global effort needed to deliver the 2030 promise under the Decade of Action.
- **Collaboration**: We conceive and deliver action in a spirit of collaboration and mutual support among the diverse community of partners, complementing each other rather than competing. We thrive to build synergies in order to catalyse action as needed in implementing the NUA to accelerate the achievement of the SDGs. Urban Thinkers Campuses are the key platforms to do so.
- **Result-driven**: Our actions are driven by results that are measurable. We are accountable, transparent and we monitor our actions on the ground and demonstrate impacts of solutions in cities and communities. Our contributions to the SDGs are tangible.
- **Partnership**: We thrive to deliver in partnership with UN-Habitat.

Our Goal: “Help achieve the urban dimension of the sustainable development goals (SDGs) by 2030 and implement the New Urban Agenda.”
What We Promote and How

WHAT WE PROMOTE

The World Urban Campaign promotes the implementation of the New Urban Agenda to achieve the SDGs. It does so through a set of principles and drivers of change as defined in The City We Need, our manifesto.

We promote cities that are socially inclusive and engaging; affordable, accessible and equitable; economically vibrant and inclusive; collectively managed and democratically governed. We advocate for cities that foster cohesive territorial development, is regenerative and resilient, have shared identities and sense of place. The City We Need is well planned, walkable, and transit-friendly, safe, healthy and it promotes well-being, learns and innovates.

HOW WE PROMOTE

The World Urban Campaign engages a variety of organizations and the general public through action campaigns on key areas to raise awareness on critical issues and promote positive urban changes. The World Urban Campaign promotes policy dialogues to discusses urban issues, identify solutions and act through initiatives developed and implemented locally along agreed platforms such as the Urban Thinkers Campus. Solutions and actions are documented and lessons learned shared broadly for improving future actions.
The City We Need

The City We Need (1.0)

Initiated in 2013, The City We Need (1.0) is a manifesto of the World Urban Campaign made of nine principles suggesting concrete ways to achieve sustainable urban development. The City We Need (1.0) was launched in New York in March 2014, prior to the Seventh Session of the World Urban Forum.

The City We Need (2.0)

Towards a New Urban Paradigm

Revisited in 2015, The City We Need (2.0) provided a more advanced urban paradigm and vision prepared before the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) held in Quito in 2016. It was drafted through the contributions of 7,596 men and women from 113 countries and 2,251 organizations, representing 14 constituent groups: Local and subnational authorities, Research and Academia, Civil Society Organizations, Grassroots organizations, Women, Parliamentarians, Children and youth, Business and industries, Foundations and philanthropies, Professionals, Trade Unions and Workers, Farmers, Indigenous people and the Media. The City We Need (2.0) is comprised of 10 principles and 10 drivers of changes, widely shared and illustrated before the Habitat III Conference. It was adopted in Prague on 12 March 2016.

The City We Need NOW! (3.0)

Realizing the New Urban Paradigm

In 2021, the World Urban Campaign partners have started to revisit The City We Need (2.0) recognizing the daunting task of building back stronger after the devastating impacts of the COVID-19 pandemic and the rising climate change challenges.

The revised manifesto is meant to convey the urgency of multiple and interconnected urban challenges. It reiterates the need to make cities and human settlements inclusive, safe, resilient and sustainable by the end of the decade while meeting the ever-more urgent challenges of climate change and disasters, eradication of poverty, public health, migration, inequality and environmental degradation.

The City We Need NOW builds on the implementation of global agreements such as the New Urban Agenda, the Sustainable Development Goals, the Paris Climate Agreement, and the Sendai Framework for Disaster Risk Reduction.

The City We Need NOW is a living document updated by the WUC partners through its 16 Partners Constituent Groups.
THE TEN PRINCIPLES OF THE CITY WE NEED NOW (3.0)

1. Health and Well-being
   The City We Need is healthy and promotes well-being

2. Peace and Safety
   The City We Need is free from violence and fosters a culture of peace

3. Climate Adaptation and Resilience
   The City We Need is free from violence and fosters a culture of peace

4. Inclusion and Gender Equality
   The City We Need is free from violence and fosters a culture of peace

5. Economic Opportunities for All
   The City We Need is economically vibrant and provides opportunities to all

6. Culture and Identity
   The City We Need has a strong sense of place and has room for diverse identities

7. Local Governance
   The City We Need is managed through public participation and democratically governed

8. Urban Planning and Design
   The City We Need fosters comprehensive and integrated planning and development

9. Housing, Services and Mobility
   The City We Need ensures access to housing, services and mobility

10. Learning and Innovation
    The City We Need learns and innovates
The Urban Thinkers Campus

The Urban Thinkers Campus (UTC) is a global platform for urban partners to generate synergies towards the implementation of the New Urban Agenda and the Sustainable Development Goals. It is conceived as an open space for critical exchange between urban researchers, professionals, activists, social workers and decision-makers who believe that urbanization is an opportunity and can lead to positive urban transformations. It is also intended as a platform to build consensus between partners engaged in addressing urbanization challenges and proposing solutions to urban futures.

To date, it has engaged more than 25,000 people in about 250 events worldwide.

Urban Thinkers Campuses contribute directly to the following objectives:

- Broaden and strengthen the engagement of urban stakeholders on the implementation of the New Urban Agenda.
- Define priorities and means of actions to implement the New Urban Agenda.
- Gather commitments from different
organizations and agree to roles and responsibilities in the implementation of specific actions.

- Define action plans combining all priority actions and commitments of stakeholders engaged in the priority actions.

- Agree on implementable road maps with key milestones towards the implementation of priority actions to deliver the New Urban Agenda.

- Share commitments, action plans and road map publicly through WUC outreach channels (website, social media, email and others).

For more information, consult the Urban Thinkers Campus resources.

The Urban Thinkers Campus is conceived as an open space to give a voice to everyone and generate synergies between essential partners towards the implementation of the New Urban Agenda and the Sustainable Development Goals.
I’m a City Changer

‘I’m a City Changer’ is the awareness-raising initiative of the World Urban Campaign. It is about positive urban development, finding solutions to urban challenges and giving voice to people to change our urban future. It is a promotional campaign designed to increase awareness on urban issues and promote solutions.

It gives a voice to individuals who take action in cities and communities to help achieve the urban dimensions of the 2030 Development Agenda. It challenges urbanites to contribute actively to creating good Cities for all, aiming directly at sensitizing and creating awareness among citizens on urban issues to achieve better cities. With global cities predicted to absorb a growth of two-and-a-half billion people between now and 2050, urban change is an inevitability; the direction of this change depends on the strength and will of civic participation.

SHARE URBAN SOLUTIONS AND INSPIRE OTHERS

We need to ensure just distribution and preservation of fundamental resources in order to guarantee their availability for future generations. City Campaigns shall propose solutions to urban challenges and share those through the World Urban Campaign Solutions Platform.

The spirit of ‘I’m a City Changer’ is about sharing solutions both at the local and global levels. It is about the search for unique and innovative solutions sparked from local proposals, while inspiring change through sharing solutions and experiences from cities around the world.
Examples of actions in your city/community:

- Sponsor and participate in the building of an urban community garden.
- Advocate for more and safer bike lanes.
- Lobby for more green spaces in your area such as parks and forests.
- Support the elimination of single-use plastics in your community.
- Generate awareness about your city’s environmental footprint.

I’M A CITY CHANGER is about giving a voice to everyone and promote individual actions in cities and communities.

JOIN THE MOVEMENT!
Join the World Urban Campaign

Join us to develop solutions and take action in cities and communities to implement the New Urban Agenda and help accelerate the achievement of the sustainable development goals (SDGs) by 2030. We build synergies and take action towards ambitious goals commensurate with the global effort needed to deliver the 2030 promise under the Decade of Action.

HOW TO JOIN?

BECOME A PARTNER:

For organizations and networks

- Sign a Statement of Commitments (including sign-up to The City We Need Now!)
- Commit to key areas of change
- Promote WUC activities, action campaigns and WUC communication
- Apply to lead an Urban Thinkers Campus
- Receive regular updates on WUC activities
- Use the WUC channels to share information globally
- Participate in the WUC Annual Assembly

More information: Joining Form and Template Joining letter

BECOME A CITY PARTNER:

For local governments

- Sign a Statement of Commitments (including sign-up to The City We Need Now!)
- Commit to key areas of change in your city
- Promote WUC activities, action campaigns and WUC communication
- Apply to lead an Urban Thinkers Campus
- Receive regular updates on WUC activities
- Use the WUC channels to share information globally
- Participate in the WUC Annual Assembly

More information: Joining Form and Template Joining letter
BECOME A SPONSOR:

For private sector entities and foundations

- Contribute to the WUC through a formal agreement with UN-Habitat
- Promote WUC key messages
- Benefit from special visibility as WUC sponsor (speaking opportunities, events, social medias, media releases)

More information: Contact the WUC Secretariat

BECOME A CITY CHANGER:

For individuals

- Participate in Urban Thinkers Campuses
- Sign-up to The City We Need
- Receive regular updates on WUC activities
- Take part in the WUC Annual Assembly

More information: Joining Form and City Changer Toolkit
World Urban Campaign Logos

Like several UN-Habitat programmes, special events and campaigns, the World Urban Campaign (WUC) has its own logo to identify its activities.

The use of the WUC logo is limited to WUC activities carried out by WUC partners and as approved by the WUC Steering Committee. Those include branding and promotion of the Urban Thinkers Campus and other approved WUC events as well as web and social media content.

The WUC ‘badge’ containing the wuc logo may be used by approved WUC partners on their websites, events and social media channels to signify their partnership with WUC. The WUC logo shall not be used by partners for fundraising unless jointly agreed with UN-Habitat. The use of the WUC logo does not signify approval or endorsement by UN-Habitat of views and opinions expressed by WUC partner organizations.

WUC partners wishing to use the WUC logo in their publications (articles, books, reports, manuals, toolkits and so on) must obtain the agreement of UN-Habitat through the WUC Secretariat. Publications bearing the WUC logo must adhere to the boundaries, country names and designations used by the United Nations as well as other editorial guidelines. Publications must also include the WUC disclaimer. Similarly, WUC publications prepared jointly with UN-Habitat must obtain clearance by the WUC Secretariat to use the WUC logo; those publications are also subject to the use of the WUC disclaimer. The WUC logos cannot be changed or edited in any way. The WUC logo may be used by the partners with or without the tag line “A Global Catalyst for Change”.

![World Urban Campaign Logo](image-url)
OTHER LOGOS

**Urban Thinkers Campus**

The Urban Thinkers Campus logo can only be used by the WUC Partners for UTC events approved by the WUC Steering Committee.

**I'm a City Changer**

The 'I'm a City Changer' logo is a promotional campaign logo designed to increase public awareness of urban issues. This is a free logo to use for anyone who shares the goals and abides by the basic United Nations rules and principles.

**City Changer**

The 'City Changer' logo stamp is used by the World Urban Campaign (UN-Habitat and WUC partners) to acknowledge outstanding achievements by individuals. The “City Changer” logo can be used to illustrate the achievements of specific individuals ONLY as nominated by the WUC partners and approved by the WUC Steering Committee. UN-Habitat authorizes WUC partners to use this stamp for the approved “City Changer” individuals as endorsed, under specific conditions.

**UN-Habitat**

The UN-Habitat logo is restricted to institutions that have signed a Memorandum of Understanding or Agreement of Cooperation with UN-Habitat and only in conjunction with the work undertaken with/for UN-Habitat. Permission to use the logo by UN-Habitat is required.

For more information, please consult the WUC Logos Guidelines.
